The Zabzugu District Assembly like all other Assemblies derives its functions from article 245 of the 1992 constitution of the Republic of Ghana as well as section 12 and 13 of the Local Governance Act (Act 936) of 2016.

The Functions of the Assembly are both mandatory and permissive. This implies that law or Act of Parliament states some of the functions of the Assembly, while others are left to the discretion of the Assembly to embark upon in the interest of the District.

The mandatory functions of the District Assembly are spelt out in the Local Governance Act of 2016, Act 936. Section 12 (1-9) and Section 13 (1-8) of the Act mandates District Assemblies to among other things;

District Economy

The District is an Agrarian Economy with greater majority (92%) of the population engaged in subsistent Agriculture. The second largest occupation is service and sales workers who constitute 4.3 percent of the employed population. The number of craft and related trades workers represent 3.0 percent of the employed population. Those employed as professionals constitute only 0.7 percent. The non-existence of a financial institution in the District is hampering socio economic activities.

- **Agriculture**

Majority of the people in the District are engaged in Agriculture. About 92% of the people are farmers in both crop and rearing of small ruminants. The main crops cultivated by farmers in the district are: yam, millet, maize, sorghum, cassava, groundnuts, cowpea and soya beans. Goats and Sheep are the small ruminants reared in the district. They are often sold during the lean season (May to July) to meet the food needs of households. The district is a net exporter of legumes and roots & tubers.

- **Road Network**

The district is span with a total of 402km roads network which links the district capital to other communities as well as other neighboring districts.

The district has two major transport systems that are water transport and road. The major road in the District is from Yendi through Zabzugu town to Tatale and to boarder between Ghana and the Republic of Togo. The main means of road transportation is the road transport with motor bikes, 'Motor kings' 'Yellow Yellow' and bicycles. The district also has some number of water transport where people use canoes and boats when crossing to other communities in and outside the district.

- **Energy**

The District capital Zabzugu, and a few larger Communities are connected to the National grid. Approximately 11% of the total number of communities in the District is connected to the National grid. This is woefully inadequate since most of the communities lack access to electricity.

Also, there is nonexistence of LPG fuel filling station in the District. The nearest LPG station is at Yendi about 50km from the District Capital Zabzugu. This results in over reliance on wood fuel and charcoal by the Communities.

- **Health**

The district has one hospital at Zabzugu; Two health centers at Nakpali and Kukpaligu, Ten CHPS Centers at Woribogu, Sabare, Kuntumbiyili, Gor-Tanei, Ojoja , Gor Kukani , Mognegu, Subruni, Kukokpang and Kpalgigbini, Two clinics at RCH and Zabzugu SHS.

- **Education**

The Directorate of Education in the Zabzugu District has five educational circuits: Gor Circuit, Sabare Circuit, Kworli Circuit, Zabzugu Circuit and Kukpaligu Circuit.

The district has 54 Kindergartens, 55 Primary schools, 16 junior high schools and 1 Senior high school. These comprise of both public and private institutions. The Teacher-Pupil ratio is 1:89 for the Kindergarten, 1:54 for the primary level and 1:19 for the Junior high school level.

- **Market Centres**

The weekly market at Zabzugu is the major marketing center. There are other satellite markets in the District as well. Yam is the major commodity sold in the markets including other food crops like cow pea, groundnuts, maize soya beans etc. Small ruminants like goat and sheep are also sold in these markets.

- **Water and Sanitation**

The principal sources of water supply in the district are boreholes fitted with pumps, hand dug wells streams, ponds and dugouts. About 70% of the people within the district have access to portable water.

- **Tourism**

The district has a lot of untapped tourism potentials in the following areas: Naa Zangina's Grave and Mosque at Sabare, the Steep Slope at Kukuokpanga, Checheboni Waterfalls at Mogneigu, the Grave Yard of Spiritual leaders at Sabare, etc.

- **Environment**

The district has one large water body thus, the River Oti that flows through the district. A number of streams, dugouts, valleys and hills are also found at various locations in the district, as components of the natural environment. The vegetation of the district is guinea savannah, though some areas in the southern part fall within the transitional zone. Soils in the district are generally sandy loam with alluvial deposits in the low lands. Mean wet season rainfall for the district is (April- October.) 1,150 mm. Rainfall is seasonal and unreliable.
